Innovation in and out of parlour

MicroMarque3S Parlour Control

The MicroMarque3S is a simple and easy to use memory control with can be connected to a wide range of optional extras including parlour auto-id, automatic drafting gates, milk meters and Cowculator dairy animal management software. It can be used on herringbone or abreast parlours.

Innovation in and out of parlour

General Features

- Memory can store up to 999 cows
- 4 digit numeric cow numbers
- 6 health attentions – AI, vet, mastitis, dry, test, bulling and slow - optional cow already fed attention
- Feeding and milking prevention on health attentions
- Optional audible attentions
- Stainless steel mounting bracket and fixing kit included

Options

- Feeding and non-feeding versions available
- Store milk yields using the ATL milk meter
- Store milk yields from Fullwood Afikim, Gascoigne Mellotte, Nedap and other milk meters
- Automatically feed and store milk yields without keypad cow number entry using auto-id
- Automatically sort cows using the Pegasus drafting system
- Connect to Cowculator dairy animal management software to manage your cows, perform feed to yield and select cows for drafting from the comfort of your farm office

Extra Parlour Control

- 12/24v DC switching positive or negative feeders as standard - 12-230v AC feeder switching voltage optional
- Drives electric or vacuum feeders - 12 feeders per side as standard - expandable to 48 feeders per side
- Individual and global digital feeder calibration including electronic fuse detection with power supply failure warning
- Sequential or stored feeding modes
- Feeding via individual rations programmed against cow numbers
- Feed totals available - total feed for cow, number of cows fed, cows not fed, daily feed for herd, and feed to date for herd.

Milking Features

- 2 or 3 milkings per day
- Connects to either ATL milk meters or other manufacturers milk meters using Milk Meter Interface
- Milking totals available* - current day yield for cow, previous day yield for cow, current day yield for herd and cows with percentage milk yield variation

* Only available if MicroMarque3S is connected to milk meter system.

Cowculator Additional Features

- Manage your cows using feed and yield history over multiple lactations
- Monitor cow health and medicine use
- Feed to yield and feeding based on days in milk

Extra Parlour Control

- Access cows records from another terminal in the parlour using the Extra Parlour Control
